INCLUDED IN THE BOX: 2 Stencil Sheets

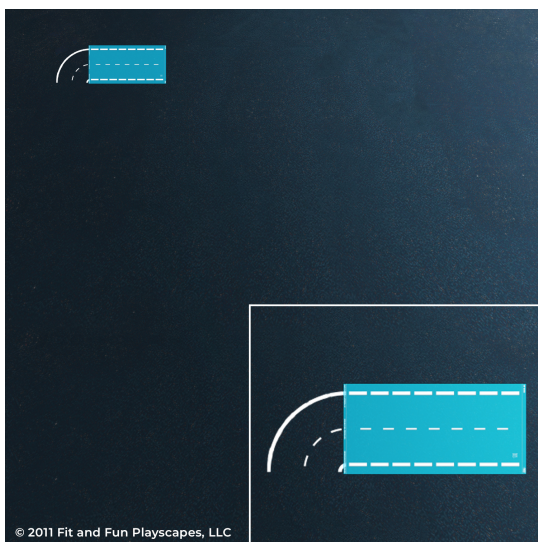

BEFORE YOU START PAINTING: Please completely read the General Instructions & prepare your surfaces as recommended.

TO MAKE SQUARE RACETRACK (approx. 45 ft by 45 ft)

STEP 1:

Separate the two quarter round pieces along the perforation on **STENCIL A**. Take one of the stencil pieces (they are the same) and rotate it like so in your desired location. Paint your **STENCIL**. Repeat 1-2 more times to achieve desired vividness, drying after each application. Then remove your **STENCIL**. Fill in the gaps so your **STENCIL** is complete.

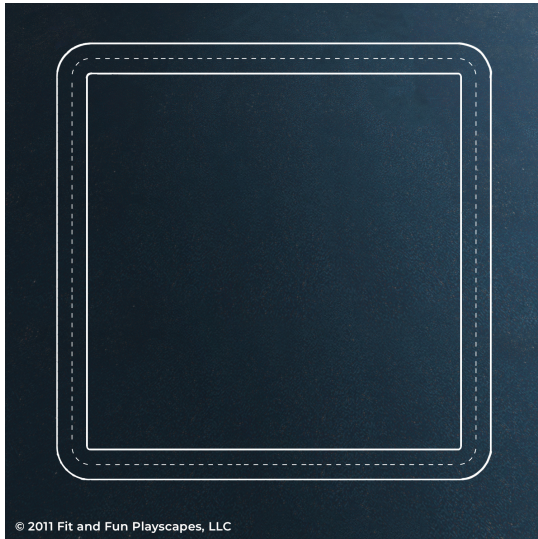

STEP 2:

Place **STENCIL B** over the completely dry painted pavement. Paint **STENCIL B**. Repeat 1-2 more times to achieve desired vividness, drying after each application. Then remove your **STENCIL**. Fill in the gaps so your **STENCIL** is complete.

STEP 3:

To create the square racetrack, start by repeating step 2 four more times and then end off the corner with **STENCIL A**.

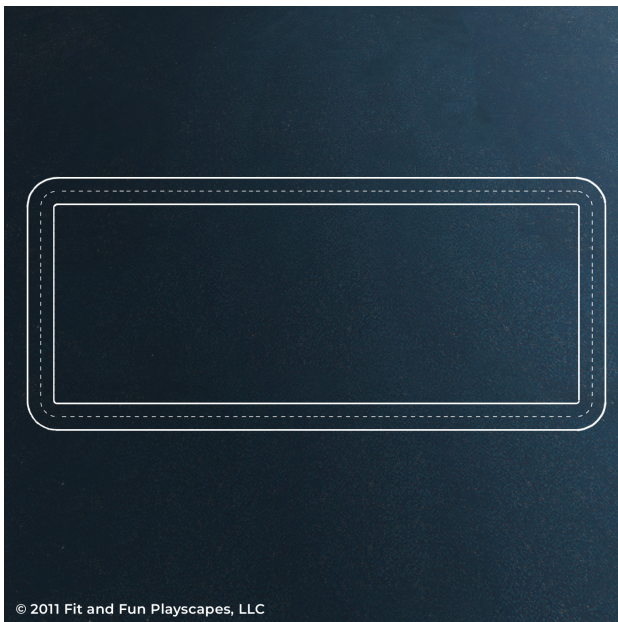

TO COMPLETE THE SQUARE RACETRACK

Repeat step 3 to complete the square racetrack. Each side should have five connected straight road parts. See the image on the left for reference.

Allow the paint to dry for a minimum of 24 hours before use.
