## INCLUDED IN THE BOX: 1 Stencil Sheet (multiple pieces)

**BEFORE YOU START PAINTING: Please completely read the General Instructions & prepare your surfaces as recommended.**

## STEP 1:

Separate your **STENCIL** pieces along the perforation on your **STENCIL**. Then put your **STENCIL** pieces aside. Pop out and discard the base, home plate and pitcher's mound **STENCIL** inserts because you will no longer need them.

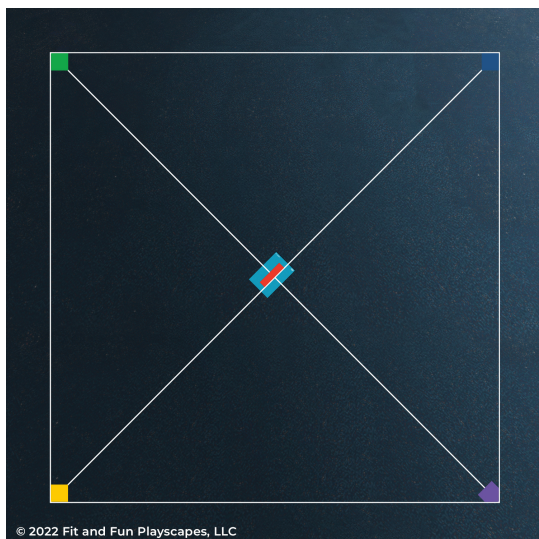

\*\*\***TIP:** Using chalk lines and a tape measure, mark out the location of the base and home plate, making sure the lines are at 90 degree angles. The bases and home plate are typically 30 feet apart.

## STEP 2:

Take the square base **STENCIL** and place it at the top right corner (representing first base). Align it to the inside edge of the chalk line. Paint your **STENCIL**. Repeat 1-2 more times to achieve desired vividness, drying after each application. Then remove your **STENCIL**.

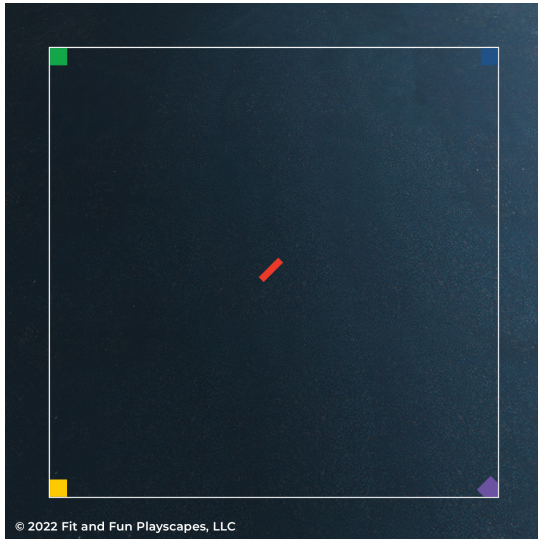

Use the same base **STENCIL** to make 2nd and 3rd base. Then paint the home plate stencil. Making sure plates are inside the chalk line.

## STEP 3:

Make a chalk line from corner to corner to find the center. Place the pitcher's mound **STENCIL** where the lines intersect. Paint the pitcher's mound. Repeat 1-2 more times to achieve desired vividness, drying after each application. Then remove your **STENCIL**.

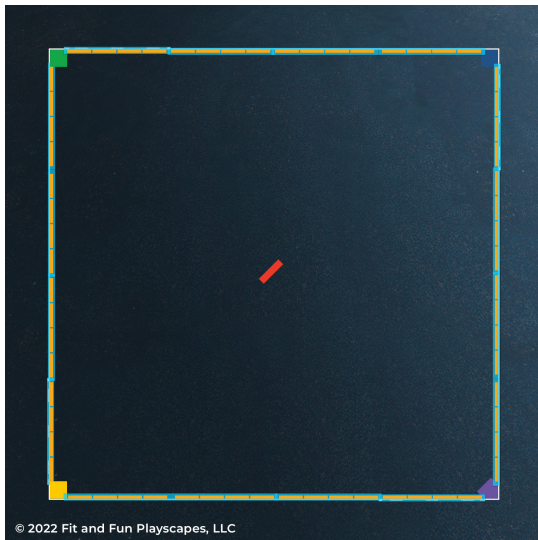

\*\*\***TIP:** The front of the pitcher's mound should align with the chalk line.

## YOU SUCCEEDED!

You finished painting the bases, home plate and the pitcher's mound of Kickball Set. Your painted Kickball Set should look like the image to the left.

Next, you will be painting the lines.

## STEP 5:

Take one strip of the line **STENCILS** and align it to the edge of the base and inside the chalk line. Line up the other line **STENCILS** to reach the other end, as shown. Repeat 1-2 more times to achieve desired vividness, drying after each application. Then remove your **STENCILS**. Fill in the gaps so your **STENCIL** is complete.

Repeat the same process for the other 3 lines, as shown.

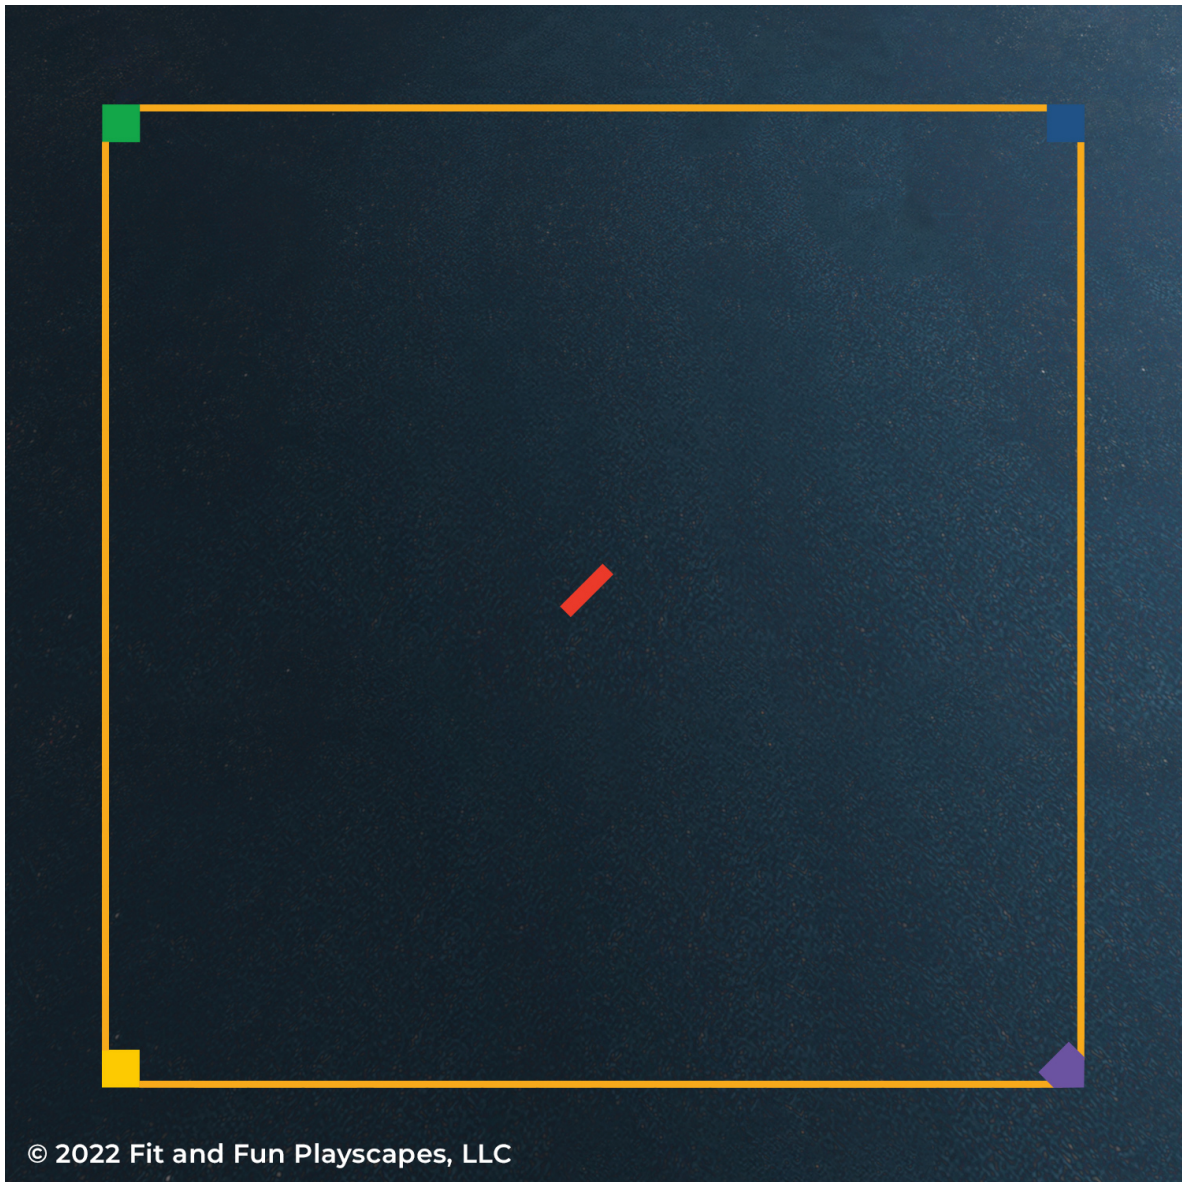

**Allow the paint to dry for a minimum of 24 hours before use.**
